Support Nov 30 Pension Strikes!

On November 30th, public sector trades unionists will take part in national strike action to defend their pensions and those of future generations. This is likely to be the largest industrial action since the 1926 General Strike, possibly ever, and will show the ConDem government that working people are not willing to sit back and simply accept attacks on our public services, jobs and pensions.

Please make a donation to support the strikes and give your details below to find out what else you can do to help.
